## Experience

Senior Associate Product Safety (Tech Team PS)  
Amazon Development Center, Bangalore, India

May 2020 - Current

- Developed Scripts using JS, jQuery and SharePoint based automations that accelerate the work of C-Ops associates by surfacing targeted information that they require for completing a task directly into their browser window. We improve productivity by decluttering information available across multiple systems and displaying the one relevant for making a correct decision.
  - Prepared SOP's & trained 30+ associates on the process.
  - Performed data analysis to effectively assign tasks to associates and predict future requirements using forecasting methods.
  - Working with Program and Legal teams to established processes in Ops to ensure amazon's safety legal requirements as per Singapore's Controlled Goods Regulations is met covering products in catalog worth \$79M USD.
  - Prepare daily/Weekly reports & share that with respective authorities.
  - Provided Tech skills to help in process automations & reporting's.
-
